WELCOME TO MOUNTAINVIEW SAFETY SERVICES LTD.

We would like to take this opportunity to introduce you to Mountainview Safety Services Ltd. President Dan Wilson. Dan has been a paramedic for over 15 years and has worked in the oil and gas industry in the first aid sector for more than 15 years.

Mountainview Safety Services Ltd. Offers certified Green Seal instruction for WHMIS, TDG, Ground Disturbance, Confined Space & Rescue, Gas Detection & Control, Hazard Assessment & Control, Fall Protection

and ATV & UTV Safety Training..

Mountainview Safety offers all levels of medics from OFA 3 up to and including Paramedics. All EMR Attendants and Paramedics hold interprovincial certificates, making it beneficial to our clients conducting projects along the Alberta and Yukon borders.

Our fully trained attendants are experienced and prepared to utilize their skills on each and ever job assignment.

We can provide Medics with additional specialized training on use of ATV/UTV and snowmobile, with rescue equipment or Drug and Alcohol screening based on the ob and Client needs.

UPDATE... SERVING BRITISH COLUMBIA, ALBERTA AND SASKATCHEWAN

Professional Medical Attendants

We provide services from OFA Level Three to ACP Paramedics meeting the need of our clients. All medics are qualified in advanced airway, breathing and circulation management techniques. In addition, all medics hold current CPR and AED training certification, allowing them, to provide competent treatment from the most minor to major life threatening situation.

In addition, we offer an office based paramedic supervisor and a contract medical director for 24 hour support. We also provide training in splinting techniques and full spinal immobilization of a patient. Attendants are trained to handle minor issues to major life threatening trauma.

In addition to First Aid training, our attendants are competent in the use of road radios, record maintenance for vehicle and inventory inspections plus

assisting with all other field paper work required.

First aid attendants come with all equipment needed to comply with or exceed all provincial standards set out by Work Safe.

WHY CHOOSE OUR PARAMEDIC SERVICES?

We provide service from OFA3, EMR and Paramedic levels, all qualified in advanced airway, breathing and circulation management techniques along with splinting techniques and full spinal immobilization of a patient.

In addition, we offer our field staff an office based paramedic supervisor and a contract medical director (doctor) for 24 hour support, should the need arise.

and AED training certification, allowing them to provide competent treatment from the most minor to major, life-threatening trauma.

Attendants are also trained in the use of road radios, GPS, vehicle inspections, inventory inspections and all paperwork required in the field by our clients.

As a value added service, our attendants are trained and prepared to provide on-site field orientation as required.

Our MTC's and industrial paramedic units are fully stocked and exceed all provincial standards in both BC and AB, as set out by Work Safe.

The effort of Mountainview Safety Service Ltd. And our staff completely meet the need of our clients.

We would welcome the chance to assist you with any of your medical needs or answer any of your questions that you may have; just give us a call!

SECURITY SERVICES

Mountainview Safety Services Ltd. is also a full services Security company. Offering Private Investigation, Security Consulting and Security Guard Patrols. Our personnel are licensed and certified to provincial requirements. Our services offer peace of mind and safety benefits to your assets by offering control at access entrances or vehicle gates. Our roving security patrols are instructed to provide an observe/detect, deter and report method of service. Our security patrol personnel use visibly marked patrol vehicles equipped with two-way communication systems and cell phones for maximum safety. Mobile security patrols are ideal for commercial and industrial locations on a 12 hour shift or 24/7 basis. Our trained personnel may hold both a security licenses and first aid tickets that will allow dual services to be available on site for our clients.

MOUNTAINVIEW SAFETY SERVICES

In the past few years, companies have recognized the importance of fit-for-work testing and regular pre-employment screening for employees. With rising liability rates, increased litigation for accidents where drug and alcohol I involved **Mountainview's Occupational Health & safety Services** meets the needs for all industries operating in the north.

"We are so excited to provide this service in Dawson Creek for these programs. We are confident that our economy will continue to grow and we are positioning ourselves for the future" said Dan and Norma Wilson, owners of Mountainview Safety Services Ltd.

OH&S Testing requires a high level of **professionalism** and adhere to very strict **privacy** regulations. Mountainview treats all their clients and employers needs in a professional manner. They work with industry leading laboratories and facilities licensed in Canada.

"We love working with our clients, new and established. It's critical that we meet their needs...for that reason, we provide testing services 24/7 at our Dawson Creek office."

"At Mountainview, we are a family run business with deep roots in the community. Rather than focus on just first aid attendants, we have expanded our business to include a specialized paramedic division so that we can provide our clients with a higher level of care."
